languages

experience

- 2015 Sept– **Patron** New York, NY
Frontend developer
-Develop user interface of web product and landing page (patron.gallery), shipping core features regularly in an agile startup environment.
-Use HTML/CSS(SASS), AngularJS, Gulp, Heroku, and cross-browser compatible, responsive design techniques.
- 2016 Feb– **Namely** New York, NY
Developer Consultant, Freelance
-Work closely with marketing team to implement effective A/B testing.
-Develop user interface of the marketing site to optimize web conversion rate.

projects

- 2016 **Flappy Bird**
-Currently building a clone of the "Flappy Bird" game on HTML5 Canvas.
- 2015 **CryptoVeil**
-Built a chrome extension on the MEAN stack that helps Gmail users share sensitive data.
-From co-developing RESTful routes, managing authentication, and using Gmail.js (Gmail JavaScript API), learned about data flow, DOM manipulation and the browser in particular.
-Available at Chrome web store <http://bit.ly/1QrbBzP>
- 2015 **Mean-Microgreens**
-Built a single-page, e-commerce application on the MEAN stack where users can create their own blends of microgreens.
-From co-designing database models, API endpoints to developing core user interfaces (cart), engaged in the full stack development.
-Deployed at <http://bit.ly/21H2JgA>

education

- 2015 **Fullstack Academy of Code** New York, NY
Immersive software engineering program focused on full stack JavaScript.
- 2010–2014 **Duke University** B.A. Int'l Comparative Studies, Japanese Durham, NC
Magna Cum Laude, GPA: 3.84
- 2011 **Princeton in Ishikawa** Kanazawa, Ishikawa Prefecture, Japan
Recipient of full merit government scholarship for summer language studies.
